

Einfeldträger vs. Durchlaufträger (3-8m)

Solid slab, single-axis load-bearing,
continuous (standard superstructure)

Solid slab, single-axis load-bearing,
continuous (standard superstructure + filling)

Solid slab, single-axis load-bearing,
simply supported (standard superstructure)

Solid slab, single-axis load-bearing,
simply supported (standard superstructure + filling)

Ribbed plate, single-axis load-bearing,
simply supported (standard superstructure)

Ribbed plate, single-axis load-bearing,
simply supported (standard superstructure + filling)
